

This list has been prepared by the RAI to show which Local Government Areas (LGAs) are in each of the Internet Vacancy Index (IVI) Regions. The regions do not always map well across LGAs as they have been designed under a different geography. So in preparing the list we have looked at a simple 'best fit' as to which Region an LGA best fits into. Vacancies in LGAs which overlap different IVI Regions will have some of the characteristics of both IVI Regions.
